

Global Health Through Research

SCIENTIFIC SYMPOSIUM:

GLOBAL HEALTH THROUGH RESEARCH

& 18TH MOLECULAR PARASITOLOGY/VECTOR BIOLOGY SYMPOSIUM

On the campus of the University of Georgia, Athens, GA
Friday/Saturday September 19/20 2008

We invite you to join us for an exciting symposium on molecular parasitology, immunity to parasites and vector biology to mark the 10th anniversary of the founding of the Center for Tropical and Emerging Global Diseases. This will be a day-and-a-half scientific conference featuring presentations from some of the leading investigators in the field from around the world mixed with shorter presentations selected from the abstracts submitted by attendees.

Confirmed Invited Speakers:

Juan Jose Cazzulo (Instituto de Investigaciones Biotecnológicas, San Martín, Argentina); **George Dimopoulos** (Johns Hopkins University, Baltimore, MD); **Jean-François Dubremetz** (University of Montpellier II, Montpellier, France); **William Gause** (New Jersey Medical School, Newark, NJ); **Artur Günzl** (University of Connecticut Health Center, Farmington, CT); **Paul Kaye** (University of York, York, UK); **Malcolm McConville** (University of Melbourne, Melbourne, Australia); **Artur Scherf** (Institut Pasteur, Paris, France); **Andy Waters** (University of Glasgow, Glasgow, UK); **Elizabeth Winzeler** (Scripps Research Institute, La Jolla, CA).

This meeting will be free of fees but requires prior registration. Note the deadlines for registration (August 10) and abstract submission (September 1). To find detailed information on this conference, and to register and submit an abstract please point your web browser to:
